

COPILOT MULTIBECK

2 feeders in 1 to optimize results

COPILOT MULTIBECK the most versatile, its feeding system is adapted to every age and every type of bird: Chicken, Turkey, Duck, Quail, Guinea-fowl.

CS-24 for chicken

Double plate feeding system

CS-45 with cover and collar for turkey

FEATURES

- **Large diameter plate** to facilitate bird access.
- **Round and lower plate**, facilitating access to food from the first day.
- **Easy to adjust and clean:** Exclusive rotation system.
- **Flexible downpipes**, for easy cleaning and handling.
- **It does not allow the entry of birds** on the plate.
- **Heavy duty material** Polypropylene Copolymer.

BENEFITS

- **Always clean feed.**
- **Easily adapts** to existing lines.
- **More hygiene, less work and less waste.**
- **Maximum versatility**, a single plate from start to exit.
- **Lower mortality and greater batch homogeneity.**

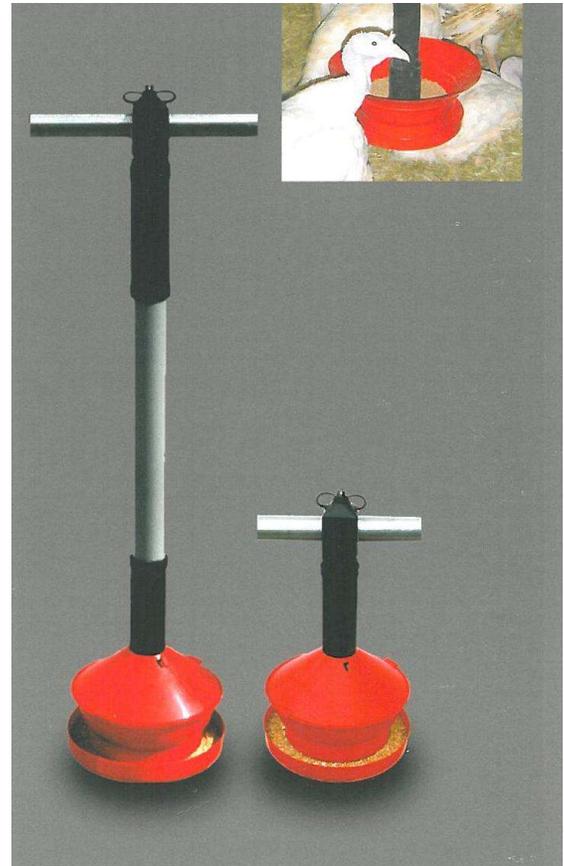

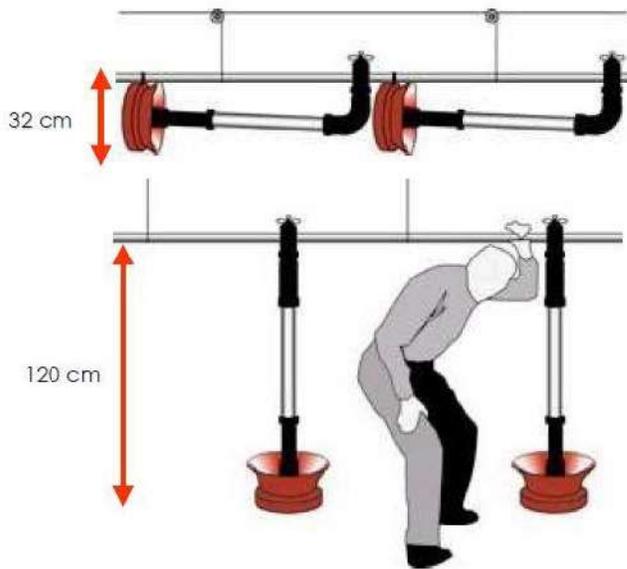

Rotation System to have an easier, faster and more efficient cleaning and disinfection: A jet of water is enough to clean the feeders. Rotating feeders allow a faster drying.

ALWAYS FRESH AND CLEAN FEED

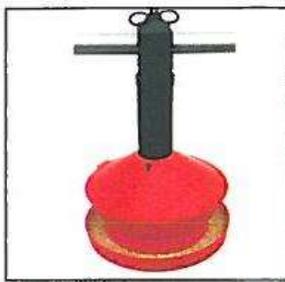

MODELS

- **CS24:** Specific for **chicken**, it is the version with the shortest downpipe.
- **CS45:** Standard version, it adapts to the needs of each type of bird.
- **CS120:** Specific for **turkeys**, it is the version with the tallest downpipe. It allows the Farmer to pass from one side to the other under the tube; thus avoiding having to go to the end of the line to do it.

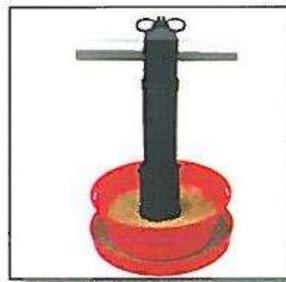

Three downpipe heights available
